👤 About me

Full stack javascript developer, passionate about Technology
and coding with the M.E.R.N stack.

I describe myself as a person that has the capacity to adapt
to new technologies rapidly and find the most efficient
solution to the problems and commitments related to code.
I'm proactive, creative, and persistent.

🎓 Education

Full Stack developer
Jun 2022- Sept 2022
Make It Real Academy

Mechanical Engineer
2016 - 2022
Universidad Tecnológica de Bolívar

Industrial Processing Technician
2013 - 2015
Cedesarrollo Comfenalco

💼 Experience

KRU360
December 2022 - January 2023

Software Developer position.
I performed full stack develoment solutions, focusing on frontend
integrations, data displaying, and UI experience.
Used technologies: Typescript, Next.js, CSS, Express.js, NPM
libraries. agile methodologies, Gitlab.

Make It Real Academy
June 2022 - September 2022

Project 1: Burguer factory

I developed an application that would allow a fast food-type start-
up, in this case of burgers, to add, edit, delete, and show their
products on a menu to the "users". Also, "users" could simulate a
purchase with its total cost by adding products into a shopping
cart and modifying their quantity.

Used technologies: Javascript, Next.js, Tailwinds, Express.js,
MongoDB, Redux, Mongoose, Joi, Jwt, Railway, Netlify, Stripe,
Sendgrid, Render.

Back-End Repo / **Front-End Repo** / **Deployed app**

Project 2: Airbnb Clone

I collaborated in the elaboration of a clone of the application
Airbnb, which had the functionality of adding, deleting, and
modifying spaces as a "host" after registration and sign-in. Also,
to make reservations as a "user".

Used technologies: Javascript, React.js, HTML/css/sass,
Express.js, MongoDB, Redux, Mongoose, Joi, Jwt, Heroku,
Vercel.

Back-End Repo / **Front-End Repo** / **Deployed App**

Coordinadora Mercantil S.A
August 2021 - February 2022

Assistant maintenance Engineer

- I performed the main role of supervising the mechanical
  technique team. Together, we collaborated to maintain
  the heavy-duty vehicle fleet of the company.
